

Linguaskill Test, Cambridge Assessment English

Linguaskill is a multi-level, adaptive, modular online test assessing candidates' language competence in reading, listening, writing and speaking.

Available in two versions: **Linguaskill General and Linguaskill Business.**

Provides fast and accurate results.

Both versions of the exam consist of three modules that can be taken independently.

1. **Linguaskill Reading and Listening** – this module assesses reading and listening skills with no predetermined number of questions. The test stops when a candidate has provided enough answers to enable Linguaskill to accurately assess his/her skill level.

Duration - approx. 60-80 minutes

Results available at the end of the test.

2. **Linguaskill Writing** – this module uses innovative Automarker technology thanks to which answers entered using the computer keyboard are automatically checked. The test consists of Part 1 - email, Part 2 - article or report.

Duration - 45 minutes

Results available within 12 hours.

3. **Linguaskill Speaking** – this module consists of five parts and evaluates the ability to conduct a conversation, speak on a given topic, interpret a graph, express an opinion.

Duration – approx. 15 minutes

Results available within 48 hours.

The Linguaskill test assesses English language proficiency on a scale from below A1 to C1 or above according to the CEFR scale.
